

R community @ HITS

Susi Zajitschek

School of Biological &
Environmental Sciences

LJMU R user community

- 70+ members (private group)
- <https://ljmutricks.github.io/bag-of-tricks/>
- Sharepoint R_community: [R_community – Home](https://ljmu.sharepoint.com/teams/R_community)
(https://ljmu.sharepoint.com/teams/R_community)
- R_community@ljmu.ac.uk

R community, so far

- Basic skills: see resources
- Guest speakers: open science
- Advanced skills: genomic plotting / bookdown
- (some) open sessions: “bring your problem”

Missing..?

- Community involvement: Taking turns sharing knowledge about R (packages ; plotting; stats; shiny,)

Why?

- Share knowledge
- Build confidence (as user / presenter)
- Create shared resources / Best practice – open research
 - “version control” – long term reproducibility
 - Collaboration / code sharing (Github)

R Studio - R Markdown

- More than “just stats”

Examples:

- Teaching material: <https://rpubs.com/SusZaj/1108339>
- Supplements for papers: <https://rpubs.com/SusZaj/ESF>
- Write your thesis in R Studio:
<https://github.com/ismayc/thesisdown?tab=readme-ov-file>
- Step by step guide:
https://ismayc.github.io/thesisdown_book/index.html

Introduction to the Open Science Framework

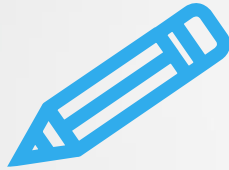

OSF – Open Science Framework

Center for Open Science

- non-profit
- Free, open-source platform

Supports research lifecycle

- Planning to publication

Project Management

- File organisation
- Sharing
- Version control

Combined funding sources

- Preservation fund: 50yrs + accessibility

Reproducibility
and
transparency

reduce
"reproducibility
crisis"

credible science

Open
practices

promote
collaboration

efficiency

public trust

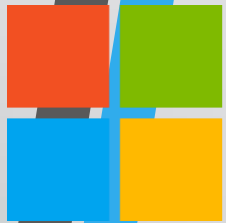

Funders

increasingly
mandate
openness

Collaboration

- Sharing data
- Sharing code
- Sharing drafts
- Sharing versions

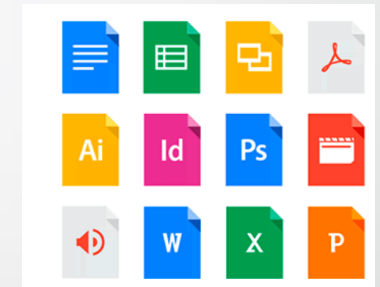

Microsoft

OneDrive

Many options

Potential issues?

Accessibility

- multiple collaborators
- different platforms

Organisation

- where did that file go...?

Many single files

- rather than project sharing

OSF.io

[Search](#)[Support](#)[Donate](#)[Sign Up](#)[Sign In](#)

There's a better way to manage your research

OSF is a free, open platform to support
your research and enable collaboration.

[Get started](#)

Discover public research

Discover projects, data, materials, and collaborators
on OSF that might be helpful to your own research.

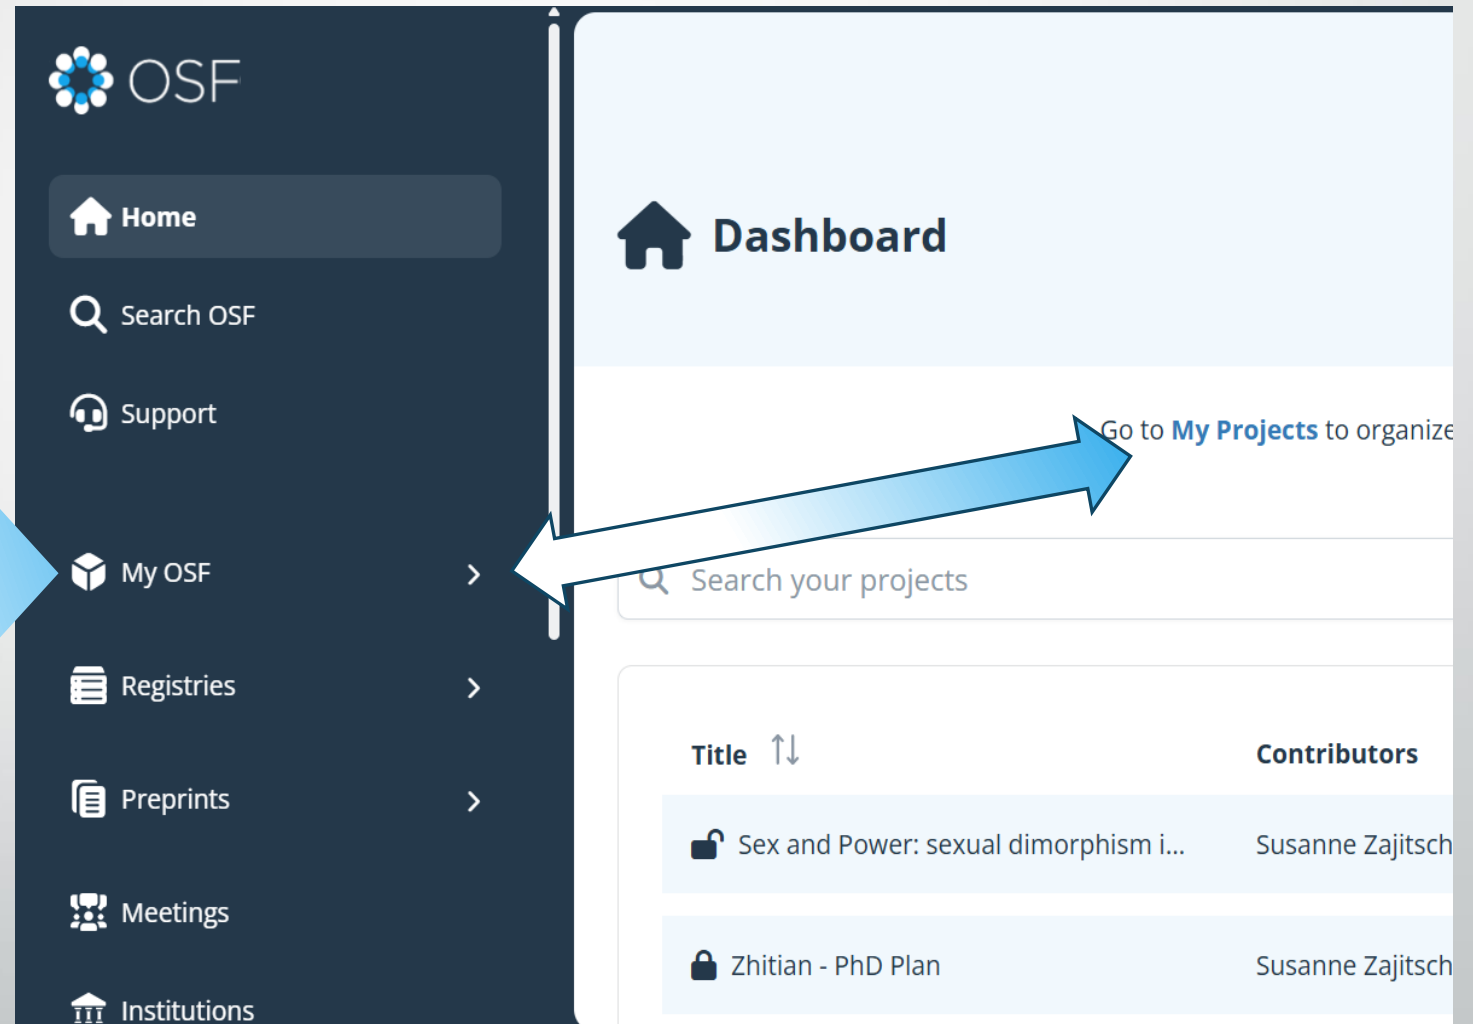

Key Features

Projects and components

File storage

Version control /File history

Collaboration

- Preprints &

- Pre-registration-
registration

**Study plan /
methods**

- Documented
- Pre-Reg: Peer-reviewed
- Decouples study design
from outcome

Pre-Registration

What:

Time-stamped record of study design

Why:

Improves credibility, reduces hindsight bias

How:

OSF pre-registration templates

- AsPredicted
- Prereg Challenge
- Standard Pre-registration

OSF Registries

Public, searchable
repository of registered studies

Domain-general

Promotes **visibility and credit** for study design

Options to **embargo**

Preprint Server

Public, searchable

Domain-specific
PsyArXiv, BioArXiv, etc.

Permanent DOI
links for citation

OSF and FAIR Principles

Findable

- Projects and data indexed
- DOIs available

Accessible

- Public sharing
- Embargo options

Interoperable

- Supports metadata
- Common file types

Reusable

- Wikis
- structured templates

Publications

Link preprints, published papers, supplements

Accessibility

- multiple collaborators
- different platforms

Organisation

- where did that file go...?

Many single files

- rather than project sharing

Many options

Microsoft

All

OSF in practise

Individual project

- Manage Thesis
- Analysis pipeline
- Admin project

Lab / Group Space

- Centralise resources
- Share protocols

Store
shared files

Collaborative Space

- Open access:
 - data
 - code
 - Protocols
- Link:
 - preprints
 - papers

Supplements

- <https://osf.io/dashboard>

Wiki

- Project overview
- Documentation
- Key information

Files

- Uploads
- Linked services

Contributors

- Manage permissions

Activity

- Automatic tracking
- logs

Advantages

Facilitates
reproducibility

Centralised

Free of charge

Community
support

Modular

Public
projects

50 GB
limit each

Limitations

Single file limit:
5GB

Private
projects:
5 GB max
